Download and use Chartered Accountants Worldwide (CAW) Network Member Logo for ICAB Members

Chartered Accountants Worldwide (CAW) has launched a network member logo which is available for all ICAB Members to download and use in business cards, website, stationery and documents. To access the logo of Chartered Accountants Worldwide (CAW), please visit the URL: <https://charteredaccountantsworldwide.com/network-member/>

The logo is a badge which shows you are a 'Chartered Accountant Worldwide Network Member' for you to use in relevant business situations as you see fit. It is not a qualification or a designation, it is a way to show you are a Chartered Accountant who is part of a wider global network.

Why use the Global Logo?

As a Member of ICAB, you are already a Chartered Accountants Worldwide Network Member. You can connect with other members in the global network, expand your professional connections and access resources to keep your skills up to date.

The logo will help you to show you are part of something bigger. It helps create international recognition for the Chartered Accounting profession, countering the rise of other global designations and ensuring that your qualification stands out in an increasingly competitive market. The logo appealed to businesses using and employing chartered accountants, particularly those looking to the future and who were doing business internationally. Network membership demonstrates you are part of a global network and you have the skills needed in your local market.

What ICAB Members need to do?

In order to download the CAW Network Member logo, simply click on the link stated above and complete the form available in the CAW website page. By completing and submitting this form, you will immediately receive an e-mail from the CAW in your e-mail ID mentioned in the form and will be able to access the CAW Network Member logo together with instructions and some examples of how you can use it on your business card, e-mail signature, stationery, website and on social media.
